

SPOTLIGHT ON:

Tiffany Morey, MBA Coordinator, Dahl School of Business, Viterbo University

In your own words, what is the greatest benefit of your NAGAP membership (i.e. Professional Development, Networking) and why?

It is hard to give one benefit of the NAGAP membership; and because I'm a "passionate rebel" (i.e. – rule breaker) I will tell you my top three, in order of importance. Here they are: relevant and applicable information at the annual conference (hard to decide which breakout to attend so we found a group and shared notes back and forth); lifelong friendships (we ended up staying two extra days together after the conference ended); and learning opportunities beyond the conference (webinars which provide continuous information flow that make me a better employee and spark discussion with my Viterbo team)!

Having attended the NAGAP Annual Conference, the MAGAP chapter events, and NAGAP receptions, please describe how/if these experience enhanced your professional development:

After the NAGAP events, I came home and bought clear binder business card that neatly display all of fellow graduate admission colleagues' contact info. These cards were collected during the professional and development networking events. I would say I've emailed nearly every person I collected a card from. The attendees are very helpful, especially to someone new to Graduate Enrollment Management.
